Tuesdays 12:00-1:30

Planning and Assessment

Course Description

IINSC 590: Planning and Assessment will provide students with essential skills, regardless of professional objectives.

- Topics covered in the course include:
- the history of library/information center assessment,
- the planning and assessment cycle,
- strategic planning;
- common assessment methods, such as interviewing, observation, focus groups, and data analysis;
- and planning and assessment tools, including Tableau, LibQUAL+, MINES, and MISO.

This course will incorporate service, active, peer, and problem-based learning approaches.
