

Youth Informatics Certificate Program*

offered by the
UT School of Information Sciences (SIS)

THE UNIVERSITY OF
TENNESSEE
KNOXVILLE

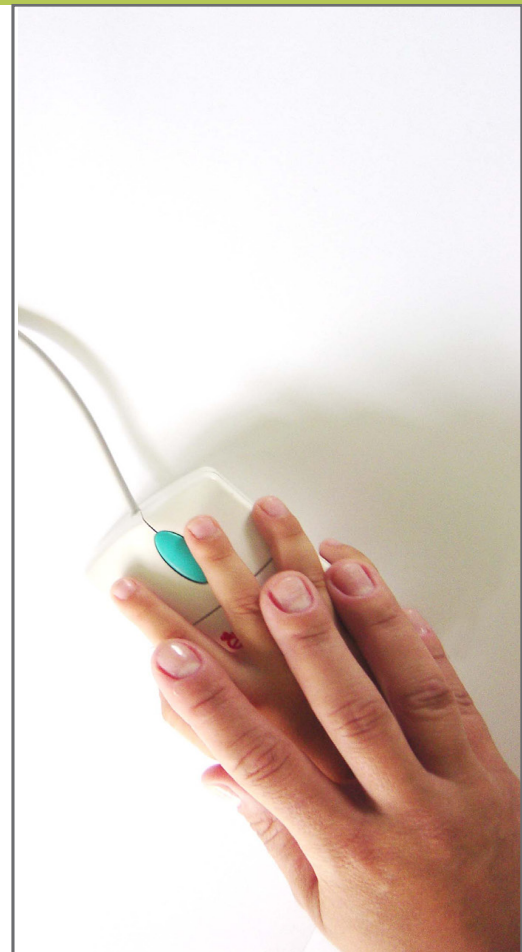

SCHOOL OF INFORMATION SCIENCES

Youth Informatics (YI) Graduate Certificate Program

- Learn how youth use and apply technology in diverse settings
- 12-credit hour program: 4 courses, 3-credit hours each
- Available to all graduate level students across the UT system regardless of discipline
- Continuing education (CWS) credit available
- Valuable program for professionals who engage youth through information technology:
 - school and public librarians
 - teachers and education administrators
 - computer programmers and designers for youth
 - youth group leaders

What is it?

Informatics is the science of gathering, manipulating, storing, retrieving, and classifying recorded information using information and communication technology (ICT).

Youth informatics is an interdisciplinary area of study that focuses on how youth transform information technology and how information technology transforms youth.

How do I get more information?

Call the SIS offices Monday - Friday, 9:00 a.m. - 5:00 p.m.(EST). Ask to speak to someone about the Youth Informatics Certificate Program at 865-974-2148 or email sis@utk.edu.

Who can apply?

- Current UT SIS master's students can earn the certificate by completing YIC required courses as a part of their Master's degree coursework

With prior approval from SIS Coordinator of Youth Informatics (Dania Bilal, PhD, danial@utk.edu)

- Master's and doctoral students currently enrolled in other programs, even those at other universities may also apply
- Practitioners with a Master's or doctoral degree from another program at UT or from another university
